

## Connecting our Communities

We stand with the broader meeting and event community during a time when our industry is being profoundly affected.

From the entire team at the OLC, we express our heartfelt support to our friends and colleagues across the globe in the meetings and events industry. We are also grateful for all of those on the frontlines protecting and keeping us safe and healthy.

In times like these, we believe more than ever in helping others collaborate, educate and innovate.

**When you are ready to meet face-to-face for a hybrid or tailored event, we are here 100% of the way.**

## Preparedness and Protection at the OLC

As a healthcare and educational meeting facility, the safety and health of our community are always of the utmost importance at OLC.

Since opening the doors in our first facility 25 years ago, the OLC has been compliant with the standards, rules and regulations per the Occupational Safety and Health Administration (OSHA) and the Occupational Safety and Health (OSH) Act of 1970. As such, that means we are subject to strict federal regulations and sanitation standards.

### Now GBAC STAR™ Accredited!

Most recently, the OLC achieved Global Biorisk Advisory Council® (GBAC) STAR™ facility accreditation, the gold standard for prepared facilities. Under the guidance of GBAC, OLC has implemented the most stringent protocols for cleaning, disinfection and infectious disease prevention in its meeting, education and medical training facilities.

Preparedness and Protection at the OLC

## Preparedness and Protection at the OLC (continued)

Specifically, the OLC:

- Maintains and performs regular housekeeping practices, including daily and nightly cleanings, using hospital-grade disinfectants
- Provides staff members with uniforms and personal protection equipment (at no cost to the staff) that fits, offers appropriate protection and is commercially cleaned and sanitized
- Has an Infectious Disease Preparedness and Response Plan in place
- Uses color codes, safety signs, labels, and posters to alert staff and attendees of potential hazards
- Properly and safely maintains and cleans all equipment and tools in the facility
- Utilizes an HVAC system that uses 100% outside air and MERV 14 filtration
- Is subject to regular inspections from OSHA compliance officers
- Provides ongoing safety training to all employees

### Additional Health Safety Measures – CDC Guidelines

Following recent changes to guidelines and recommendations from the U.S. Centers for Diseases Control and Prevention (CDC) and in partnership with our local and state health departments, the OLC has added additional measures and precautions to protect and maintain the health and safety of guests and staff:

- Modified room layouts configured to keep attendees spaced out at least 6 feet apart
- Social distancing enforced in all common areas, labs, locker rooms and meeting rooms
- A new and separate OLC entrance, with ample signage, has been designated outside the building for all attendees to use while entering and exiting
- Strict mask requirements
- Implementation of Electrostatic Disinfection, a forensic spraying that uses Multi-Clean Century Q 256 to ensure all surfaces are wrapped with EPA registered, hospital-grade disinfectant
- Additional alcohol-based hand sanitation stations placed throughout the venue
- Providing disposable, disinfectant wipes to routinely sanitize commonly used surfaces
- Working with our industry food partners to provide individually packaged food and beverage items

As additional recommendations emerge or guidelines change, the OLC will continue to enhance our preparedness and protection measures.
